

NEWBORN *Photoshoots*

A baby fills a place in your heart you never knew was empty and with just one look it is filled with so much love and joy!

Being a mother myself I know how much I love to look at the photos of my children. They will never look like this again. Don't miss a moment.

Newborn photos are usually taken within 2 weeks. I want you to be comfortable with your new bundle of joy, so talk to me and let's see how we can capture those adorable little toes where and when it suits you.

LIFESTYLE PACKAGE

- Pre-portraits of the little one.
- Cake Smash and bubble/milk bath.
- Family portraits – please dress accordingly
- Limited to parents and siblings of the birthday boy/girl - no exceptions.
- If more family members want a photo an additional Family Session can be arranged.
- Average 1-to-2-hour session.
- Photos delivered via WeTransfer when finished.

R 1 600

- Valid June 2024 till June 2026

STUDIO SETUP PACKAGE

- This package is where we go a little bit more staged with some backdrops and cute poses and props.
- This shoot will be done at my Studio in Heiderand, Mossel Bay.
- This kind of photoshoot takes time, time to setup and even time to get baby to sleep and be calm. Because of this I usually put out 3 to 4 hours to make sure we get enough photos even if we have to spend some time getting baby to sleep, so please make sure you are in now rush.
- Setups included:
 - 1 or 2 colour plain backdrop wrapped or clothed.
 - 1 setup with props like bed, swing, basket etc. These setups can be discussed
 - few photos with parents, if parents would like.
 - If there are siblings, especially smaller siblings, they are welcome to be present during the time we take their photos. When they are done, I would request that they are taken home, the studio is very small to keep them coped up for 4 hours while we are trying to be quiet and keeping baby asleep.
 - Babies can be tricky, sometimes they are the perfect little angle and let us take tons of photos and other times not. I will always strive to get you as many photos as possible. Usually I try to give you at least an average of 40 photos, if there is a 100 you will get that 100, but that is all dependent on our baby.
 - A meeting before the Photoshoot, to discuss the details (only if required can be via face chat as well.)
 - Your sneak peek will be uploaded unto my website and social media for your friends and family to see and sent to you via WhatsApp.
 - Photos delivered via WeTransfer when finished.

R 1 800

- Valid June 2024 till June 2026

Please send your payment confirmation via sms or WhatsApp 0724659465 or you can email me at info@adelevanzyl.co.za

Have a look at more of my work at www.adelevanzyl.co.za

Session Checklist

If we do the session at your house it has to be within great lighting times too since I shoot with natural light.

We will be shooting in the room with the most available natural light so make sure the room is clear and clean.

Make sure the nursery is nice and tidy, should we do some natural photos of baby there.

Make sure the rooms is nice and warm.

Try to feed baby 30 minuets or so prior to my arrival.

If we are doing the styled shoots with backdrops and props, make sure the baby is already dressed in just his diaper and if you have a diaper cover. We dont want to wake baby with too much dressing and undressing.

If you would like to be in images with your baby, make sure to look nice and wear colors that complement your setting. I suggest beautiful light colours for a soft and gentle look.

Be prepared for explotions of all kinds. Poop, pee and spit up may go flying or sprayng on anything around. Lets have burp cloths, wipes and clean up stuff out and ready :)
